

FTTM
FULL TILT BOOTS
2021/2022

Comfort is performance. That's the motto we live by when it comes to our boots. If you're comfortable in your ski boots, then you're going to have a good time on the mountain, and nobody makes comfier ski boots than us. From Moms and Dads to kids and teens, to full-on professional skiers like Sammy Carlson or Tom Wallisch, you can find Full Tilts on the feet of skiers from all different walks of life and ability levels. Whether it's the ease of getting the boot on and off, the lightweight feel, or the uncompromising flex, there's a lot to talk about with Full Tilt Boots. The best part? You don't have to be a world-class athlete to reap the benefits of a 3-piece boot; they're designed for everyone to enjoy.

So slip your foot into a Full Tilt Boot, strap em' down, and feel the comfort for yourself. It won't take you long to realize that there's a whole lot to love. For the good of skiing, the revolution of the 3-piece boot started here, and it's going strong. Join in on the revolution. #Fulltiltisforeveryone

PRO TOUR WRAP

Dominate the Up and Down

Slip-on the Full Tilt Pro Tour Liner and get ready to motor on up the skin track. Crafted out of Intuition® Foam, and featuring a tour notch and lace-up system, the Full Tilt Pro Tour Liner offers the added comfort and performance your boot is missing.

FOAM LISTED FROM FOOT TO SHELL

4mm Open Cell: Ensures warmth and comfort straight out of the box
7mm Intuition™ HD Foam: High density and firm for a responsive and efficient transfer of energy.

2mm Intuition™ MD: Medium density and hardness for a solid balance of comfort and performance.

PRO WRAP

Responsive Power

Slip into the Full Tilt Pro Liner, and experience unmatched ankle retention and pressure-free performance. Crafted out of Intuition® Foam, the Full Tilt Pro Liner offers the added comfort and performance your boot is missing.

FOAM LISTED FROM FOOT TO SHELL

4mm Open Cell: Ensures warmth and comfort straight out of the box
2mm Intuition™ MD: Medium density and hardness for a solid balance of comfort and performance.

7mm Intuition™ HD Foam: High density and firm for a responsive and efficient transfer of energy.

Powerwrap: Increases efficient power transfer directly to the shell of the boot.

PERFORMER WRAP

Lightweight Agility

The Performer Liner's laminates are specifically engineered to be our lightest weight liner for increased maneuverability while maintaining its warmth and custom moldable fit right out of the box.

FOAM LISTED FROM FOOT TO SHELL

4mm Open Cell: Ensures warmth and comfort straight out of the box.

4mm Intuition™ MD: Medium density and hardness for a solid balance of comfort and performance.

5mm Intuition™ HD: High density and firm for a responsive and efficient transfer of energy.

PRO TOUR TONGUE

Dominate the Up and Down

With a Tour Flex Notch, removable external J-Bars, and lacing system, the Pro Tour Tongue Liner makes walking a blister-free experience in an enveloping snug fit, while giving you the performance you need to send it on the downhill.

FOAM LISTED FROM FOOT TO SHELL

2mm Intuition™ MD: Medium density and hardness for a solid balance of comfort and performance.

4mm Open Cell: Ensures warmth and comfort straight out of the box
7mm Intuition™ HD Foam: High density and firm for a responsive and efficient transfer of energy.

PRO TONGUE

Responsive Power

Crafted out of Intuition® Foam, the Pro Tongue Liner's laminate is specifically engineered to provide energy transfer to the shell while maintaining warmth in a custom, moldable fit. Slip-on the Pro Tongue Liner and feel the power of the highest performing liner that we've ever created.

FOAM LISTED FROM FOOT TO SHELL

4mm Open Cell: Ensures warmth and comfort straight out of the box
2mm Intuition™ MD: Medium density and hardness for a solid balance of comfort and performance.

7mm Intuition™ HD Foam: High density and firm for a responsive and efficient transfer of energy.

Powerwrap: Increases efficient power transfer directly to the shell of the boot.

CLASSIC TONGUE

Easy In, Easy Out

The Classic Liner's laminates use multi-layered construction in a traditional tongue liner, designed to provide targeted comfort and performance in a familiar way.

FOAM LISTED FROM FOOT TO SHELL

5mm Open Cell: Ensures warmth and comfort straight out of the box.

4mm Intuition™ Foam: Medium density and hardness for a solid balance of comfort and performance.

4mm Standard HD: High density and firm for a responsive and efficient transfer of energy.

ORIGINAL

Tried and true.

The FTO, or Full Tilt Original, offers the same fit and feel as the Raichle boots of years past, updated to withstand the rigors of today. Precise, snug, and proven, this 99mm last shell has become the definitive freestyle boot of the modern era.

Classic Pro

Drop Kick Pro

Drop Kick

Drop Kick S

Soul Sister 90

SOUL

A modernized take on a classic mold.

The FTS, or Full Tilt Soul, takes the same 99mm last and opens up the toe box for a roomier feel out of the box. The FTS Shell uses the original 3-piece design and adds replaceable soles for extended longevity and increased traction.

TW Pro

First Chair 130

First Chair 120

First Chair 100

Soul Sister 100

EVOLUTION

Because not all feet are created equal.

The Full Tilt Evolution Shell adds much needed depth to the Full Tilt line. Designed for those with a wider foot, the Evolution shell incorporates a higher volume fit and a 102mm last.

EVOLUTION TOUR

Freedom in the hills.

The Evolution Pro Tour offers a smooth stride and articulated purchase in any situation. Walk farther and more comfortably than ever before. Featuring a higher back cuff and lightweight Grilamid™ plastic, this construction will take you anywhere.

BETTER COMFORT

Ribbed Tongue

100% Ribbed tongue enables smoother, more natural linear flex from your shin to your toe. The tongue bends like a flexible straw, never bottoming out while providing smooth rebound. No more shin bang!

Easy On/Off

The front of the shell opens a full 90° to slide your foot in and out with ease in all temperatures. Like putting on slippers!

Moldable

Utilizing the QuickFit™ System, all Full Tilt boots – shells included – can be molded to the exact needs of your foot. Not all feet are the same; and with Full Tilt, we pride ourselves on creating boots that allow a personalized, 1-to-1 fit experience.

BETTER PERFORMANCE

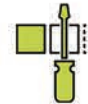

Adjustable Flex

The boot's flex is rated on a simple scale of 4-12 (12=stiffest). Change a boot's flex by simply switching the tongue. (Competitor's boots require permanent cutting.)

Infinite Pivot

Unlike traditional designs, the rear cuff never bottoms out. It pivots infinitely forward with your calf for less shell distortion, no shin pain and more control.

Customizable

All parts are sold separately for unlimited personalization and repair using a standard phillips head screwdriver.

SHELL FEATURES

Ladder Buckle

The ladder buckle features an intuitive, easy to remember, macro-size adjustment, plus a micro-twist for fine adjustment with a light, easy-to-handle aluminum lever.

Forward Lean & Cuff Alignment

Tool-less forward angle adjustment. Original & Soul shells: 2mm or 4mm. Easy, precise lateral angle adjustment. Original & Soul shells: 12mm.

Women's Cuff

The women's cuff is anatomically shaped to match a female's specific calf shape for increased comfort and control.

Shock Absorber Boot Board

Soft rubber layer in the sole of the shell absorbs vibrations, impact and shock for a smooth ride.

Widetrack Buckle

Durable aluminum levers with a minimalistic lightweight design. This adjustment mechanism is engineered to increase precision and durability while maintaining on-the-fly, single-handed micro adjustment.

45° Degree Heel Lock

Keep heels where they belong. Placing the middle buckle at an optimal 45 degree angle creates a solid lock for the heel to stay put when pressuring the tips and tails of the skis.

Grip Walk Outsole

Designed for a better purchase on unstable & slippery terrain. The convex shape and ribbed tread add both comfort & grip for getting from house to hill to peak! Sold separately. Available for FTS & FTE models.

Tech Fittings

Compatible with all pin-tech bindings, the in-molded tech fittings open up a new world of possibilities for Full Tilt Boots. One boot – any objective.

Mid Grip

Whether you are climbing grated stairs or scrambling on top of a mountain, a dual material or single material midgrip gives you the confidence to stay on your feet.

Tour Hook

Keep your buckles in place without impinging upon the full cuff rotation.

Walk Mode

Flip the lever up to ascend with ease. And when it's time to send it, flip the lever down, lock the cuff in place, and push into the fluid, progressive flex you've come to expect from Full Tilt. Works great for après bar sessions too.

Dual Material Outsoles

No slipping getting in-between you and the ground. A firm TPU and a softer material combat wear and keep your feet underneath you on any surface.

LINERS FEATURES

Power Wrap

An additional layer of ergonomically shaped EVA is wrapped around the outside of the upper liner to increase energy transfer and horsepower to the shell.

J-Bar

An additional j-shaped piece of foam is inserted internally on both sides of the ankle area to dramatically increase ankle hold down, to keep your feet perfectly in place for precise control.

Power Wedge

Dial in your forward lean angle with this removable velcro spoiler.

Wide Toe

A thinner foam is used in the front of the liner to increase space without sacrificing control for people with wider feet or who prefer a little more toe room.

Intuition™

All boot liners are built using authentic Intuition™ closed cell foam. It is body heat activated to mold 100% to your feet and shells during use, or can be instantly heat molded by a shop in minutes for a light, warm and super comfortable fit.

Women's Liner

The women's cuff is anatomically shaped to match a female's specific calf shape for increased comfort and control.

AFTERMARKET PARTS

A skier with happy feet is everyone's #1 goal! In order to achieve that, Full Tilt offers a full range of parts available for upgrading, customizing, or replacing any piece of a skier's treasured Full Tilt Boot. Capable of fitting boots past and present, no more hunting yard sales and back basement bins to get that part you need!

Full Tilt Parts Kits and separate pieces are designed to give you the versatility to upgrade, customize and replace any part you need. It's all about you after all.
