FISCHERSPORTS.JP

#LIVETOSKI

We take skiing seriously. Both Alpine and Nordic skiing.

Our devotion, commitment, and passion for skiing are what drives us. This passion and dedication have fostered a culture of great product innovation. It is hardwired in us. Our vision as a brand is to be the athlete's number one choice. We see it as our calling to enable new heights of individual performance and unforgettable moments with innovative, user-friendly products.

By doing so, we believe we will enable more people to find and share this passion, because to us skiing is not a lifestyle. It's life.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.

FISCHERSPORTS.COM

THE CHOICE IS YOURS

Fischer offers a comprehensive range of skis, boots, and bindings tailored to the individual requirements of every skier. Each product is carefully designed and equipped with technologies that ensure performance, control, and skiing enjoyment both on and off the groomers.

Whether you're looking for On Piste, Freeride, Freestyle, or Ski Touring products, Fischer has the right equipment for every skill level and every skier's preferences. Skis, boots, and bindings are designed as an integrated system for epic days of skiing from the first turn to the last descent.

With clearly defined equipment categories, Fischer helps you quickly find the right setup so your day on the snow is an unforgettable experience.

The final product offer should be taken from the country price lists. Colors and technical specifications in the catalog may deviate from the original. Rights reserved for unannounced changes and typographical errors. © October 2025

THE CURV IS TAILORED FOR THOSE SEEKING VERSATILITY, CONTROL, AND PRECISION.

Noize Control™ Technology
Incorporation of metal pigments in a specially engineered pattern along the ski for an ultra-smooth, incredibly controlled ride.

Triple Radius
Enabling unmatched versatility precise control and tailored performance with every turn on both hard and softer slopes.

Diagowrap
Carbon fibre wrapping of the wood core for maximum torsional stiffness, immediate power transfer, and supreme responsiveness.

the CURV

Precision, Power and Versatility

The Curv combines race-level performance with high versatility on groomed slopes – setting new standards in high-performance on-piste skiing. The integrated Noize Control™ technology noticeably reduces vibration and ensures exceptionally smooth running characteristics, even at high speeds. Precise tuning guarantees maximum control and stability, regardless of whether you are making short, medium, or long turns.

Shaped Ti
Titanium inlay matched precisely to the ski geometry for optimal stability and edge grip

Carbon Bridge
For torsional stability and ultimate rebound

Solid Wood Core
Ensures stability and smooth running behavior

The third generation of Fischer's "The Curv" continues the success story. Built for intermediate to advanced skiers, it's a street-legal race machine packed with World Cup technology. Offering unmatched versatility, performance, and adrenaline, "The Curv" features a breathtaking design that turns heads as easily as it carves turns.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.

COMFORT MEETS PERFORMANCE

The New Premio Series.

The Premio ski boot combines comfort, performance, and durability. It was developed using an extensive library of 3D foot scans to offer a comfortable fit for a wide range of skiers. The high-volume design with its easy entry ensures a comfortable fit and reduces fatigue. The VACUUM FIT liner with calf adapter allows for individual adjustment. The Premio is available with either the BOA® Fit System or classic buckles, and features durable, screw-in components, and robust GripWalk soles for long-lasting grip.

**YOUR
COMPANION
FROM DUSK
TILL DAWN.**

Easy Entry Flap

The easy entry flap, makes getting in and out of the boot easier than ever before—no more struggling with stiff, hard-to-manage boots.

Comfort Fit

The high-volume construction offers sufficient space in the forefoot area without sacrificing performance, ensuring that your feet remain comfortable even during all-days skiing.

Calf Adapter

The calf adapter incorporated on the back of the cuff, together with the VACUUM FIT liner allows for individual preferences and anatomy, resulting in a more customized and comfortable ride.

Fischer has crafted ski boots for all levels, from first-timers to the world's top skiers. That expertise, plus data from hundreds of thousands of foot scans, shaped a boot made for the majority of recreational skiers — offering advanced technologies, comfort, and fit that truly enhance the skiing experience.

SKIING IS NOT A LIFESTYLE. IT'S LIFE.
